

EXPERIENCE

Stevie Clifford is a Real Estate Manager for the property management team, based in the Naples office. She has over 20 years of experience in the property management field and her duties include owner and tenant relations, lease administration, risk management, budget preparation, and construction management.

Stevie's career began in the hospitality industry, and she spent 16 years as Vice President/General Manager of a privately held company which owned and managed seven hotels with a staff of 100 employees. Making the transition from the hospitality industry to commercial property management was a natural segue as both require the ability to manage people while providing quality service to the client and helping to maximize profits.

Stevie's management style, experience, and one-on-one relationships have resulted in clients in her portfolio remaining with her for many years.
