

## EXPERIENCE

As Controller of CRE Consultants Asset Management, Gayle is responsible for overseeing the financial aspects for CRE's managed properties throughout Southwest Florida markets including Lee, Charlotte and Collier counties.

Throughout her career, Gayle has worked for several national and local real estate firms and brings more than 25 years of experience in Commercial Real Estate Management, leasing, construction and financial reporting.

Prior to joining CRE Consultants, Gayle relocated to SW Florida from Denver, Colorado where she managed portfolios of over one million square feet of office, medical, industrial and government facilities. She lead a team that received the BOMA International TOBY award in 2005 for "Building of the Year" for Corporate Facility Management Excellence in the local, regional and international levels.

Gayle is a LEED Green Associate – a designation afforded to professionals who show a thorough comprehension of green building principles and practices. She was an integral member of a design and construction team that completed a two-year historical building renovation with LEED Platinum status in lower downtown Denver.
